DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Leone, et al. The cited patent discloses a pellet containing a therapeutic agent and a flexible, implantable body having a hollow interior configured to receive and retain the pellet within the interior after the body has been implanted within the tissue.

Claims 1-11 are rejected under 35 U.S.C. 102(b) as being anticipated by Thorud, et al. The cited patent discloses a pellet containing a therapeutic agent and a flexible, implantable body having a hollow interior configured to receive

and retain the pellet within the interior after the body has been implanted within the tissue.
